Find out

4. How many full moons have passed since you were born?

Ans. 87 full moons have passed since you were born.

PAGE 100

5. Look at the birth certificate of Bincy.

Form Number 3
Government of Kerala
Birth Certificate

This is to certify that the information is taken from the original record of birth which is in the register for the year 2002 of Kollam Taluk.

Name	Bincy Thomas Jacob
Sex	Female
Date of birth:	02/05/2002 (Second May, Two thousand Two)
Place of birth:	Kadampuzha Hospital
Name of Father:	Jacob Tharayal
Name of Mother:	Lata Thomas
Date of Registration:	02/05/2002
Registration Number	815/02

Date 05.05.2002 Signature of issuing authority

(a) 2/5/2002 shows that Bincy was born on 2__

Ans. 2nd of May.

(b) How old will Bincy be on 2 May 2008?

Ans. 6 years.

(c) How old will she be in the year 2052?

Ans. 50 years.

(d) On what date will she be eight years old? Write in numbers.

Ans. 2 May 2010

(e) How many months old was Bincy on 2 August 2002?

Ans. 3 months.

(f) After how many months of her birth was the certificate issued?

Ans. 3 months and 3 days.

(g) What is the registration number of her certificate?

Ans. 815/02.

PAGE 103

6. Let us look at the calendar for the year 2006.

(a) How many months does a year have?

Ans. Twelve.

(b) List the months which have 30 days?

Ans. April, June, September, November.

(c) How many days does the month of February have?

Ans. January, March, May, July, August, October, December.

(d) How many days does the month of February have?

Ans. 28 days.

(e) How many days makes a week?

Ans. 7 days.

(f) How many weeks are there in July? Is it true for all the months?

Ans. Four, Yes.

(g) In which month did you come to class III?

Ans. April.

(h) Is there something special about these dates?

Ans. Yes.

7. Fill in the blanks with the correct answer:

2005 2008 2007 2004 2009 2010

(a) Which year was it two year back?

Ans. 2004.

(b) In which year were you in Class II?

Ans. 2005.

(c) Which year will be the next year?

Ans. 2007.

(d) Which year will come after 3 years?

Ans. 2010.

8. Look at the calendar (2006) to find out the days on which these fall?

Ans.

Festival	Date	Day
Diwali	October 21	Saturday
Pongal	January 14	Saturday
Raksha Bandhan	August 9	Wednesday
Gandhi Jayanti	October 2	Monday
Milad-ul-Nabi	April 11	Tuesday
Onam	September 5	Tuesday
Guru Nanak Birthday	November 5	Sunday
Guru Ravidas Birthday	February 13	Monday

Christmas Day	December 25	Monday
Bihu	April 14	Friday

PAGE 104

9. Which festival comes in the beginning of the year?

Ans. Pongal.

10. Which festival comes at the end of the year.

Ans. Christmas.

PAGE 105

11. Now look at the calendar of 2006. Also look for the present month and draw any similar square in your notebook. Does the magic work for these?

Ans. The calendar of February 2006 is as under:

February						
S	M	T	W	T	F	S
			1	2	3	4
5	6	7	8	9	10	11
12	13	14	15	16	17	18
19	20	21	22	23	24	25
26	27	28				

Number 14 is in the centre of square.

On joining three numbers in a line we have

$$6 + 14 + 22 = 42$$

$$7 + 14 + 21 = 42$$

$$20 + 14 + 8 = 42$$

$$13 + 14 + 15 = 42$$

Yes, the magic also works here.

14. Can you find other magic patterns in the calendar?

Ans. Let us examine the addition of horizontal lines having seven numbers

$$4 + 5 + 6 + 8 + 10 = 49 = 1 \times 49$$

$$11 + 12 + 13 + 14 + 15 + 16 + 17 = 98 = 2 \times 49$$

$$18 + 19 + 20 + 21 + 22 + 23 + 24 = 147 = 3 \times 49$$

$$25 + 26 + 27 + 28 + 29 + 30 + 31 = 196 + 4 \times 49$$

Thus, each line is a multiple of 49.

15. Complete the calendar for August 2006?

Ans.

(a) On which day does this month end?

Ans. Thursday.

(b) Write the number of days in this month.

Ans. 31 days.

(c) What day is it on 13 August?

Ans. Sunday.

(d) What is the date on the second Saturday?

Ans. 12.

(e) Is the 21 a Sunday?

Ans. No.

(f) What is the day on the 29 th? What will be the date on the same day next week?

Ans. Tuesday, 5 th September.

(g) How many thursday are there in this month?

Ans. Five.
